

## Introduction

To ensure compatibility of our range of products with the new operating system, a number of drivers are available. In addition, we are preparing to release a range of driver updates to coincide with the release of Windows 7. Drivers will be provided on our website as they become available.

For an overview of which driver is best suitable for your product, please refer to the table within this document.

### Notes for Windows 7

**Note A:** There will not be Windows 7 printer driver support for your product. If you have Windows 7 on your computer you might like to consider upgrading your printer or multifunction product to one that is supported by Microsoft Windows 7.

**Note B:** We will have Microsoft Windows 7 support for your product very soon. Please bookmark this page as we will be adding further information in the coming months.

**Note C:** Your product is supported by Microsoft Windows 7. The driver for your product is included with the Microsoft Windows 7 operating system. This driver will enable your products basic functions to operate.

**Note D:** Your product is supported by Microsoft Windows 7. The driver for your product can be downloaded from our website.

**Note E:** Use Microsoft Vista driver. Windows 7 printing is very similar to Windows Vista and most printer drivers supported in that environment also work in the Windows 7 operating system. Please now check if your PC is either a 32 Bit or 64 Bit PC then visit your website [www.okiprintingsolutions.com](http://www.okiprintingsolutions.com) and download either the 32 Bit or 64 Bit Vista driver.
